

Convergence of Ayushman Bharat & ESIC in the Works

Booster Dose

Our Bureau

New Delhi: Beneficiaries of Employees' State Insurance Corporation may soon be able to use healthcare facilities under Ayushman Bharat or Pradhan Mantri Jan Arogya Yojana (PM-JAY). Similarly, beneficiaries of PM-JAY may be able to avail of services in underutilised ESIC hospitals.

"Impatient department care shall be as per the extant rates of Ayushman Bharat or Pradhan Mantri Jan Arogya Yojana packaged rates," ESIC proposed in a draft notification issued late on Tuesday evening.

An ESIC or Employees' State Insurance Scheme hospital where occupancy has been less than 60% during the previous two financial years will be considered underutilised, according to the draft notification.

The move will enable 135 million members of ESIC to use the healthcare facilities of Ayushman Bharat-empanelled hospitals, while those covered by Ayushman Bharat can avail of secondary and tertiary healthcare at 15 underutilised ESIC hospitals.

The first phase will start in 102 districts, benefitting 120,000 ESIC subscribers and it will later be extended to the whole country. Currently, Ayushman Bharat has 10 million beneficiaries but the aim is to cover 40% of the population.

The government had allowed PM-JAY beneficiaries to use medical services at underutilised ESIC hospitals under the Other Beneficiaries and Members of their Families Medical Facilities Scheme, 2010.

According to the draft notification, names of underutilised hospitals and their operational modalities regarding Ayushman Bharat or PM-JAY will be specified by the director general of the ESIC through periodic executive instructions. ESIC has sought views on the proposal from stakeholders within 30 days of the notification.

Rise in Edible Oil Prices Likely to Stay Firm till Jan

Pune: Edible oil prices, which have increased by 20-40% during the past couple of months, are expected to stay firm at least till January. Industry captains claim it is the liquidity pumped into the economy by various governments during the pandemic that was invested into the commodities was responsible for price rise despite demand contraction along with other important factors like weather aberrations and Covid-19 related disruptions.

Mustard oil prices are ruling at all time high driving up the entire edible oil complex in the country. "There is an acute shortage of mustard in the country and prices have increased by 40% to 50% during the last couple of months. Prices of other edible oil too have increased by 15% to 20%," said Ganasekar Thiagarajan, director, Comintrend Research.

Thanks to the record high mustard prices, both industry and the government are expecting farmers to shift away from wheat and increase the area sown under mustard in the rabi season.

Though the central government has put a break on inflationary trends in prices of pulses and onions by banning exports and facilitating imports, it is taking a cautious stand when it comes to edible oils as India imports close to 70% of its domestic requirement of edible oils. "It will be counterproductive reducing import duty on edible oils at this time when soyabean is being marketed and farmers are sowing mustard crops. It has been our experience that whenever India reduces import duty on edible oil, the prices of palm and soyabean oils in exporting countries go up helping their farmers," said Atul Chaturvedi, president, Solvent Extractors' Association (SEA) of India.

Chaturvedi observed that the prices in India have increased despite demand contraction caused due to Covid-19. "Many countries are pumping liquidity into the system, which is going into the stock markets and the commodities. This is why, despite the demand contraction, we have seen an increase in prices of edible oils," he said. India's edible oil imports have declined from 14.9 million tonnes.

However, analysts claim that factors like supply side worries thanks to vagaries of weather across the world.

Services Sector Grows for First Time in FY21

Services PMI hits 54.1 in Oct; strongest rise in pvt sector output in 9 yrs

Our Bureau

New Delhi: India's services sector grew in October for the first time since the lockdown as business activity and new work were buoyed by relaxations in Covid-19 restrictions, according to a private survey. The IHS Markit India Services Purchasing Managers' Index (PMI) touched 54.1 last month from 49.8 in September, ending eight consecutive months of contraction. A PMI of over 50 indicates growth.

The composite PMI including manufacturing and services rose to 58 in October from 54.6 a month earlier, signalling the strongest increase in private sector output in almost nine years.

Other indicators of economic activity that have shown record growth in October on account of festive demand include goods and services tax collections, e-way bills, railway freight volumes and autosales.

The pace of job shedding for the services sector remained "solid" in October, matching that of the previous month. Similar trends in manufacturing resulted in eight straight months of declining employment in the private sector.

While a revival of the manufacturing industry began in August, only now has the service sector started

to heal, said Pollyanna De Lima, economics associate director at IHS Markit. The improvements in services PMI pointed to a rate of growth in output that was stronger than its long-run average, according to the release on Wednesday. The data indicated the domestic market was the main source of new business gains as new orders from abroad declined further, it said.

"The deterioration in international demand for Indian services was the slowest since March, but nevertheless sharper than any recorded prior to the Covid-19 outbreak," according to the release.

In aggregate terms, new orders for the private sector expanded for the second consecutive month, with growth activity that have shown record

growth in October on account of festive demand include goods and services tax collections, e-way bills, railway freight volumes and autosales.

The pace of job shedding for the services sector remained "solid" in October, matching that of the previous month. Similar trends in manufacturing resulted in eight straight months of declining employment in the private sector.

While a revival of the manufacturing industry began in August, only now has the service sector started

facturing and services PMIs also reflects the restrictions on services being lifted, which should bring more balance to the economic recovery," Rahul Bajaria, chief India economist at Barclays, said in a note.

Input cost inflation Services companies reported rising expenses for the fourth consecutive month, with the latest increase being the strongest since February. Survey panellists attributed the rise to higher fuel costs, maintenance and material prices.

Apart from a stabilisation of input costs in information and communication firms, rising inflation was recorded in four other sub-sectors that are tracked.

Selection Rules may Change in Update of Caste Census

Covid Call: New criteria to select beneficiaries for welfare initiatives

Yogima.Sharma
@timesgroup.com

New Delhi: The rural development ministry will reconsider the criteria for selecting beneficiaries for the government's welfare initiatives as the Covid-19 pandemic has underscored the criticality of certain "essentials", rural development secretary Nagendra Nath Sinha has told ET.

Indicators like access to qua-

lity healthcare, adequate nutrition, education and awareness, water and sanitation facilities, and need for living spaces could be considered for inclusion and exclusion as the ministry prepares to update the Socio Economic Caste Census (SECC), which is used to define eligibility of a household for various benefits offered under government schemes.

"SECC data is required to be updated so as to further minimise and eliminate exclusion and inclusion errors and also to make data dynamic," Sinha said. "There is a growing recognition for the need for a multidimensional approach to move towards the vision of a poverty free India," he said, adding that the multidimensional poverty index and other related information may be used in determining inclusion-exclusion criteria post SECC updation.

Sinha said the poverty line assessment, if it was to be done at present, cannot be based only on minimum expenditure on subsistence basket as was done in the past.

"Overtime, priorities have shifted with development in India. Today, aspiring poor seek betterment in education, health, housing, skills and consumption and not merely minimum food and shelter," he said.

According to Sinha, the ministry is contemplating updating the SECC on a pilot basis in the districts where the Registrar General of India has completed the pilot house listing survey.

હાઉસીંગ લોનના વ્યાજદરમાં બેંકો-નાણાં સંસ્થાઓ વચ્ચે ગળાકાપ હરિકાઈ

ઘર ખરીદવાનો શ્રેષ્ઠ સમય! હોમલોન વ્યાજદર ઐતિહાસિક તળિયે

મુંબઈ તા.૪ કોરોનાકાળમાં વેપાર ઉદ્યોગને લાગેલા ઝટકા વચ્ચે ધિરાણ વધારવા માટે બેંક વ્યાજદરમાં સતત ઘટાડા વચ્ચે હોમલોનના વ્યાજમાં પણ બેંકો વચ્ચે ગળાકાપ સ્પર્ધા જમી છે એટલે ઘર ખરીદનારા લોકો માટે અચ્છ દીનની હાલત છે.

ભારતમાં હોમલોન પરના વ્યાજદર છેલ્લા ૧૫ વર્ષના તળીયે છે. બેંકો તથા નાણાંકીય સંસ્થાઓ દ્વારા ઘરના ધરનું સ્થાન સાકાર કરવા માટે અનેકવિધ ઓફરો પણ પેશ કરવામાં આવી રહી છે. કોટક મહીન્દ્ર બેંક સમાહમાં બીજવાર હોમલોન પરનો વ્યાજદર ઘટાડીને ૬.૭૫ ટકાની ઐતિહાસિક નીચી સપાટીએ મુક્યો છે. કોટક મહીન્દ્ર બેંકના મેનેજિંગ ડાયરેક્ટર ઉદય કોટકે ટવીટ કરીને એમ કહ્યું કે કોરોનાકાળમાં લોકોના મનમાં ‘ઘરના ધરનું સ્વપ્ન’ કેન્દ્રસ્થાને આવી ગયુ છે. રીયલ એસ્ટેટમાં વ્યાજબી નીચા ભાવ, સ્ટેમ્પ ડયુટીના નીચા દર તથા તળીયાના વ્યાજદરને પગલે લોકો ઘર ખરીદવાનું સ્થાન સાકાર કરવા આગળ આવવા લાગ્યા છે.

Notes:

- The above is an extract of the detailed format of standalone and consolidated financial results for the quarter and six months ended September 30, 2020 filed with stock exchanges under Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of standalone and consolidated unaudited financial results for the quarter and six months ended September 30, 2020 are available on stock exchange websites (www.bseindia.com / www.nseindia.com) as well as on Company's website www.jmcprojects.com.
- The above financial results have been reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on November 03, 2020. The statutory auditors have expressed unqualified audit opinion.
- Financial results for all the period presented have been prepared in accordance with the recognition and measurement principles of Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.
- The Group's operations and financial results for the period ended have been adversely impacted by the lockdown imposed to contain the spread of COVID-19. The operations gradually resumed with requisite precautions during the current quarter with limited availability of workforce and disrupted supply chain. However labour availability has now been improved and there are indicators for operations becoming normal. The results for the quarter are therefore not comparable with those for the previous quarter. The Group has assessed the impact of pandemic on its financial results/position based on the internal and external information available up to the date of approval of these financial results and expects to recover the carrying value of its assets. The Group continues to monitor the economic effects of the pandemic while taking steps to improve its execution efficiencies and the financial outcome.
